

Campbell Co., SD Obituaries - Index

An excellent book of obituaries has been compiled as a Centennial Project which covers a hundred year period from 1888 to 1988. The information in the original book was presented chronologically so this index was compiled to assist genealogists to obtain information on their ancestors.

The dates in the original book appear to be the dates on which the obituary appeared in the newspaper. Therefore, when a death date was not indicated in the text of the obituary, the date inserted for death was the date of the obituary. Please keep this in mind when searching for data since the death date may be up to a week earlier.

The data in the Age column was extracted from the obituary. This is listed as years, months, and days. For example, 58y 09m 13d would mean 58 years, 9 months, and 13 days old at time of death. One can use this extrapolate back to determine a birth date. This will not always be exact because some of the Age dates are approximate. In other cases where an age is not given, the obituary may have simply mentioned the age as a child, baby, stillborn, etc.

This original book of obituaries may be purchased from: (not sure of current cost)

Bob Dale
P.O. Box 175
Pollock, SD 57648

The index book may be purchased (\$10.00 plus \$2.00 shipping) from:

North Central Genealogical Society
